Wan Afnan Hariz

Web Developer | Software Engineer

A Diligent and Vigilant Self-Taught Software Engineer who enjoy crafting awesome websites with the power of the modern web technology. Efficient and effective in solving technical problem. Highly astute Web Developer with knack for cultivating long-term relationships with company clients. Passionate to learn new things in web development/ programming. With Web Programming Mastery, I will able to develop useful cutting-edge websites which benefits others to a better world. Therefore, it **inspired** me to become a skilful and better software engineer. Plus, I'm more interest with **Front End** programming.
